Introduction Week 3-7 September, 2012

Important news for students starting in September 2012 with one of the following MSc programmes

- MSc Mechanical Engineering, track Control Engineering
- MSc Systems and Control.

Both these programmes are taken care of by the Delft Center for Systems and Control (DCSC), one of the 6 departments of the Faculty Mechanical, Maritime and Materials Engineering (3mE).

The first week of the academic year 2012-2013 (September 3-7) will be completely devoted to an introduction week. Only a few programme-specific courses will be included, you won't miss any other classes, as the real programme will start on September 10.

The DCSC introduction week starts on Monday, September 3, at 8.45 in room IO-Bernd Schierbeek. The first 2 days of the week are completely filled (8.45-17.30) with information about the programmes, electives, 3 lectures etc.

On Wednesday, September 5, there will be a computer session from 10.45-12.30.

Starting Wednesday around 15.00 till about Friday 16.00 we will go to a location outside Delft (including 2 nights, transport will be arranged). This location is quite luxurious, no gear required, except clothes of course. Food and drinks will be arranged. There are various sleeping rooms, with about 4 beds each. Women can sleep separately from the men. During these 2 days we will also give information, but also spend a lot of time on social activities. There are no costs involved.

More details will be given at the start of the week.

We urge you to participate in all activities of this week. It's not only a perfect opportunity to learn about the programmes, the department and it's employees, the research activities, but also to get to know your fellow students, that will surround you in the coming years. DCSC has been organizing these information days for many years, and the students have always been very enthusiastic about them.

Finally we ask you the following:

1. if you plan to start one of the above mentioned programmes, please send an email as soon as possible to a.j.j.vandenboom@tudelft.nl with your name, country of origin and name of the programme.
2. If you are a vegetarian or follow a specific diet (as no fish/beef/porc/lamb/chicken), please mention that in your email.
3. If there are any issues, we need to know, please mention this as well.

---

1 Dutch students with appropriate BSc degree and International students that have been admitted through the TU Delft admission procedures (application deadline was April 1, 2012).
